

We Were Young

Adam Calhoun

Social media, the poison, take your feelings and exploit it
If you don't get the likes, somehow you feelin' less important
If you can't beat 'em, join 'em, fuck that, I'll beat 'em and enjoy it

I built my own shit, it's only me who can destroy it
The Devil is alive, look in the palm of your hand
Everyone you know on the phone, they post on Instagram
Little girls turn to hoes, exposed on OnlyFans
Know how to break the home? Get rid of the only man

When we were young, I wish you coulda seen
Runnin' out the house, playin' in the street
Didn't care what they were sayin' on TV
I miss the world and the way it used to be (Used to be)
Miss the world and the way it used to be (Used to be)
Miss the world and the way it used to be (Used to be)
Miss the world and the way it used to be
Before they poisoned us and gave us all this disease

Comments make me ill, I can feel it in my health
I'm my biggest hater, take these pills, now I can't feel myself
Why you rather see me die? Listen to the shit I write
I ain't a black rapper, I can still kill a mic
Run the jewels, keep it flawless, I ain't tryna hear my hype
My mental health is fucked, all these followers and likes
Klonopin got me noddin', I ain't tryna die tonight
Opposition rather see me fail, fuck 'em, get a life

Give my middle finger too, I got my hands tattooed
It shows the pain I've been dragged through
All for me to stomach like fast food
Take this shit away, it's past due, the bad moods
I'm about to crack like glass do
I thought we were bad, smokin' pot in bathrooms
Now kids go to school and gettin' shot in classrooms
These phones are bad news
Take away the internet now and see what that do

When we were young, I wish you coulda seen
Runnin' out the house, playin' in the street
Didn't care what they were sayin' on TV
I miss the world and the way it used to be (Used to be)
Miss the world and the way it used to be (Used to be)
Miss the world and the way it used to be (Used to be)
Miss the world and the way it used to be
Before they poisoned us and gave us all this disease
