

About Gone

Adam Doleac

If you miss the sunset, you'll get another tomorrow
And if you're out of whiskey, just head to the bar
If that old dog runs off, out chasin' somethin'
Just put some food out, he probably didn't get too far

But the thing about gone is it don't turn around
The credits roll, screen fades to black
Porch light's on, key's under the mat
But the thing about gone is it don't come back

I've seen her storm out 'cause of something I said
Slingin' goodbye gravel pullin' out the drive
Oh, but this time's different 'cause this time, she means it
And you can't change an angel's already made up mind

That's the thing about gone is it don't turn around
The credits roll, screen fades to black
Porch light's on, key's under the mat
But the thing about gone is it don't come back
Oh, yeah

The thing about love is it ain't ever easy
Thing about movin' on is it's time
'Cause I've cashed in all of my second chances
But if I had one more, you'd still be mine

That's the thing about gone is it don't turn around
The credits roll, screen fades to black
Porch light's on, key's under the mat
But the thing about gone is it don't come back
Yeah, the thing about gone is she ain't coming back
No, no
No, she ain't coming back
