

# About Time

Adam Doleac

It's about time you put that black dress on  
It's about time I took it off  
It's about time that we both slow it down, oh yeah  
Make a little love, get a little lost

It's about time we spend a little on each other  
Make it stand still under cover  
Turn it back to that first time feeling  
It's about time we lose track of it after midnight  
Make up a little to the sunrise  
Let them slow hands dancing, just kill it  
It's about you, it's about me  
It's about time  
It's about time  
Oh yeah

It's about time I started talking less  
It's about time I listen more, oh yeah  
It's about time I put you up in that spotlight  
Watch you shine, blow my mind  
Come on, baby, just shut the door

It's about time we spend a little on each other  
Make it stand still under cover  
Turn it back to that first time feeling  
It's about time we lose track of it after midnight  
Make up a little to the sunrise  
Let them slow hands dancing, just kill it  
It's about you, it's about me  
It's about time  
It's about time, baby  
Oh yeah

Ain't about what you got  
No, it's about who you're with  
And you know how to make it stop  
With just one kiss  
It's about time

It's about time we spend a little on each other  
Make it stand still under cover  
Turn it back to that first time feeling  
It's about time we lose track of it after midnight  
Make up a little to the sunrise  
Let them slow hands dancing, just kill it  
It's about you, it's about me  
It's about time  
It's about time, baby  
Oh yeah

Oh, it's about you  
Oh, it's about me  
Oh, it's about time  
Yeah, it's about time
