

# Barstool Whiskey Wonderland

Adam Doleac

Wonder if you still drive that old, red Jeep  
With the blown-out speakers and the ripped backseat  
Wonder if you still spin a record when it rains  
Does something happen to your heart when you hear my name

'Cause I've been going crazy  
Yeah, I've been wondering lately

What if I, maybe I, why the hell, damn if I  
Knew what I knew now  
Where you at, who you're with  
Every sip, wonder if you ever made it out  
'Cause I'm last-call missing you, drink in my hand  
In a barstool whiskey wonderland

Wonder if I would say that I was wrong  
A little quicker than I did, would you still be gone  
Yeah, I wonder if you're wondering if I'm okay  
Or, if it's just me that's shutting down this place

Wondering what if I, maybe I, why the hell, damn if I  
Knew what I knew now  
Where you at, who you're with  
Every sip, wonder if you ever made it out  
'Cause I'm last-call missing you, drink in my hand  
Ooh, in a barstool whiskey wonderland  
Yeah

Yeah, I been going crazy, wondering lately

What if I, maybe I, why the hell, damn if I  
Knew what I knew now  
Where you at, who you're with  
Every sip, wonder if you ever made it out  
'Cause I'm last-call missing you, drink in my hand  
Ooh, in a barstool whiskey wonderland  
I'm in a barstool whiskey wonderland
