

## Day One

Adam Doleac

Thought I'd be married by twenty-five  
With a couple kids and a little house on the outside of town  
Next thing I knew I woke up twenty-  
six 'bout as single as it gets  
And wonderin' what the hell I missed but  
Hey it's easier said than done  
'Til you find the right one

You turned one day into day one  
A million hearts it only takes one  
I thought forever was lie  
'Til I saw it in your eyes  
You turned one day into day one  
Of the rest of my life  
Of the rest of my life

Mine started over when you walked in  
Bought a drink and stole my breathe like I'd never felt I  
Knew I was yours 'for the ice even melted  
I knew I'd never be the same

You turned one day into day one  
A million hearts it only takes one  
I thought forever was lie  
'Til I saw it in your eyes  
You turned one day into day one  
Of the rest of my life  
Of the rest of my life

Hey it's easier said than done  
But I finally found one

You turned one day into day one  
Straight out the blue is where you came from  
I'd still be lost and wonderin' why  
Instead of lost in your eyes  
You turned one day into day one  
A million hearts it only takes one  
I thought forever was lie  
'Til I saw it in your eyes  
You turned one day into day one  
Of the rest of my life  
Of the rest of my life

You turned one day into day one
