

# Fast Asleep

Adam Doleac

We've been passing like trains on opposite sides  
Letting hellos turn to goodbyes  
Yeah, life's been crazy  
And everybody else gets you all day  
You give and give, and they just take  
I've been missing you, baby

I need a little time alone with you and no distraction  
What you say tonight, tonight we make it happen

There's something kinda magic  
Just midnight, you and me  
We could talk 'til we kiss  
Then kiss 'til the sun comes up  
We should make this thing a habit  
Your body's nicotine  
So baby, keep on, keep on, keep on keeping me up  
While the whole world's fast asleep

Blanket in the sky  
Blanket on the ground  
Stars in your eyes  
And the only sound is the one you're making

When everybody else is waking up we'll just be crashing  
I just wanna find a way to keep this moment lasting

There's something kinda magic  
Just midnight, you and me, baby  
Yeah, we could talk 'til we kiss  
Then kiss 'til the sun comes up  
We should make this thing a habit  
You're body's nicotine  
So baby, keep on, keep on, keep on keeping me up  
While the whole world's fast asleep  
Ah, yeah  
While the whole world's fast asleep, yeah  
While the whole world's fast asleep

I don't wanna fall asleep  
Girl, I wanna fall in love  
So baby, keep on, keep on, keep on keeping me up

There's something kinda magic  
Just midnight, you and me  
We could talk 'til we kiss  
Then kiss 'til the sun comes up  
We should make this thing a habit  
Your body's nicotine, yeah  
Baby, keep on, keep on, keep on keeping me up  
While the whole world's fast asleep  
Aw, yeah  
While the whole world's fast asleep, yeah  
Nobody else but you and me

Baby keep on, keep on, keep on keeping me up  
We could talk 'til we kiss

Then kiss 'til the sun comes up  
Aw, yeah
