

Key To The City

Adam Doleac

These streets might as well be gold
Just let that red-carpet roll
Doors open up on their own, c'mon

Lights shinin' down from the sky
All eyes are on us tonight
We 'bout to have us a time, that's right

Ain't no stoppin' us now, ain't no slowin' us down
This is our town, our turn to light it up and watch it burn

We got the key to the city
We got the world in the palm of our hands
This is our moment, this is our time
This is our chance
We got the key to the city
Can't nobody do it like we can
So come on and ride with me
We got the key to the city
Yeah, we got the key to the city

They're gonna know we were here
They'll talk about us for years
We'll change the whole atmosphere

Ain't no stoppin' us now, ain't no slowin' us down
This is our town, our turn to light it up and watch it burn

We got the key to the city
We got the world in the palm of our hands
This is our moment, this is our time
This is our chance
We got the key to the city
Can't nobody do it like we can
So come on and ride with me
We got the key to the city, ah yeah

Yeah, we got the key
We got the key
We got the key to the city

We got the key
We got the key
We got the key to the city

This is our time, our time
To light it up and watch it burn

We got the key to the city
We got the world in the palm of our hands
This is our moment, this is our time
This is our chance
We got the key to the city
Can't nobody do it like we can
So come on and ride with me
We got the key to the city
Yeah, we got the key to the city, oh

Yeah, we got the key
We got the key
We got the key to the city

We got the key
We got the key
We got the key to the city
