

# Til Dawn Do Us Part

Adam Doleac

I know what this is, I know what it's not  
I know where it starts, I know where it stops  
It ain't coffee in the morning  
No, it's a shot in the dark  
I know what I'm getting myself into right now  
But I just can't help it  
I still wanna stick around

'Til that sun starts telling me it's time to kiss your lips goodbye  
'Til the left side of my bed is empty and I'm wondering why  
Baby, I can be the shadow dancing with you in the dark  
I love you with all of my heart  
'Til dawn do us part  
'Til dawn do us part

I know when it rains, I know when it don't  
I know when you call, I know what you want  
It ain't coffee in the morning  
No, it's a shot in the dark  
I know what I'm getting myself into right now  
But I just can't help it  
I still wanna stick around

'Til that sun starts telling me it's time to kiss your lips goodbye  
'Til the left side of my bed is empty and I'm wondering why  
Baby, I can be the shadow dancing with you in the dark  
I love you with all of my heart  
'Til dawn do us part  
'Til dawn do us part  
Aw, yeah

If I can't have your sunshine  
Baby, I'll be your moon  
And if I can't have tomorrow  
I'll spend the night with you

'Til that sun starts telling me it's time to kiss your lips goodbye  
'Til the left side of my bed is empty and I'm wondering why  
Baby, I can be the shadow dancing with you in the dark  
I love you with all of my heart  
'Til dawn do us part  
'Til dawn do us part  
Yeah, 'Til dawn do us part  
'Til dawn do us part  
Yeah baby, yeah baby
