

Way Over You

Adam Doleac

Oh, oh, hey

It's been a minute since I wasn't just in it for a missing you drink
Anything to make my mind not think
Keep the ice floating so my heart don't sink
And it's been a while since I even noticed someone looking over my way
But that pretty little blue-eyed thing
Is looking at me like she wants me to say hey
So, what can I say

Oh, oh, hey, little bit better than the day before
Oh, oh, hey, I don't even miss your kiss no more
Checking my phone just a little bit less
Little more bumping the beat of my chest
I guess I'm moving on for real
'Cause, I like the way, I like the way over you feels
Yeah, I like the way, I like the way over you feels

Nah, I don't miss the way I used to see your face in every empty rock
s glass
How your memory made a happy song sad
Turn it up, damn, feels good to be back, ah yeah
And I know tomorrow that I'll probably wanna borrow just a piece of tonight
But while I got you off of my mind
I'mma have myself a getting over you night
One more time

Oh, oh, hey, little bit better than the day before
Oh, oh, hey, I don't even miss your kiss no more
Checking my phone just a little bit less
Little more bump in the beat of my chest
I guess I'm moving on for real
'Cause, I like the way, I like the way over you feels
Yeah, I like the way, I like the way over you feels
Aw, yeah

It's a getting-myself-over-you all-nighter
The sun's coming up a little bit brighter

Oh, oh, hey, little bit better than the day before
Oh, oh, hey, I don't even miss your kiss no more
Checking my phone just a little bit less
Little more bump in the beat of my chest
I guess I'm moving on for real
'Cause, I like the way, I like the way over you feels
Yeah, I like the way, I like the way over you feels
I like the way, I like the way over you feels
Yeah, I like the way, I like the way over you feels
