

# What Kinda Night

Adam Doleac

Do you wanna take it downtown, yeah  
Grab a booth and a couple rounds, well  
How 'bout it, baby, how's that sound  
What kinda night, what kinda night

Do you wanna get way gone or tipsy  
A glass of wine or a shot of whiskey  
Call your friends, tell 'em all we're busy  
What kinda night, what kinda night

Which way do ya wanna take it  
How far do you wanna go, yeah  
How late do you wanna make it  
Girl, I gotta know  
Are you a night to remember  
Night to forget  
Best night of my life that hadn't happened yet  
Whatever you want, that's what I'll do  
What kinda night, what kinda night are you  
Aw, yeah  
Baby, what kinda night are you  
What kinda night, what kinda night are you

Blanket down, kick off your shoes  
Or heels on howlin' at a neon moon  
We can light a candle or light a fuse, baby  
What kinda night, what kinda night

Which way do ya wanna take it  
How far do you wanna go, yeah  
How late do you wanna make it  
Girl, I gotta know  
Are you a night to remember  
Night to forget  
Best night of my life that hadn't happened yet  
Whatever you want, that's what I'll do  
What kinda night, what kinda night are you

Long as I'm next to you  
It don't matter, girl, I can't lose  
What you want, I want too  
So come on, baby, I'm waiting on you

Which way do ya wanna take it  
How far do you wanna go, yeah  
How late do you wanna make it  
Girl, I gotta know  
Are you a night to remember  
Night to forget  
Best night of my life that hadn't happened yet  
Whatever you want, that's what I'll do  
What kinda night, what kinda night are you  
Baby, what kinda night are you (what kinda night)  
What kinda night, what kinda night are you  
(Long as I'm next to you, it don't matter, girl, I can't lose)  
What kinda night are you  
(What you want, I want too)

What kinda night, what kinda night are you
