

# Before It Breaks Me

Adam Gregory

I went wandering down your street again  
That's what I do every now and then  
I've got no business here I know  
But I can't seem to let you go

Life's been passing while time stands still  
If I don't get a grip now I probably never will  
It's obvious one of us is going strong  
While one of us is barely hanging on

Why do you need to be so hard on me  
I need someone to  
Show me the secret to breaking free  
Before it breaks me

I get on my feet then I'm right back down  
Whenever your memory comes around  
Will it ever get any easier

Why do you need to be so hard on me  
I need someone to  
Show me the secret to breaking free  
Before it breaks me  
Before it breaks me

With all the time that's passing by  
You'd think that I'd know why

Why do you need to be so hard on me  
I need someone to  
Show me the secret to breaking free

Why do you need to be so hard on me  
I need someone to  
Show me the secret to breaking free  
Before it breaks me  
Before it breaks me

Breaking free  
Breaking free
