

Blue Corvette

Adam Gregory

Grandpa met grandma back in 1962
He's still got that picture of them in that car blue
And he tells these stories about living life and love
About them against the world and never giving up, he said

Put the pedal to the metal with the top down dreaming
Hands on the wheel with the engine screaming
Remember what you give is what you get
It goes by fast it goes by quick
If you stand on the sidelines watching it
Or life will pass you by like a blue corvette

I was 21 when he handed me the keys
He said boy she's all yours, fill'er up with memories
She'll take you through the ups and down
Any storm that comes along
If you drive her right, she'll never steer you wrong

Put the pedal to the metal with the top down dreaming
Hands on the wheel with the engine screaming
Remember what you give is what you get
It goes by fast it goes by quick

If you stand on the sidelines watching it
Or life will pass you by like a blue corvette

I drove that car the way he said
And then I met the girl
Now it's her and I
Whatever comes
It's us against the world, yeah
Blue corvette

Put the pedal to the metal with the top down dreaming
Hands on the wheel with the engine screaming
Remember what you give is what you get
Oh, it goes by fast it goes by quick
If you stand on the sidelines watching it
Or life will pass you by like a blue corvette

Don't let life pass you by like a blue corvette
Like a blue corvette
