

# Comin In Hot

Adam Lambert

Read my mind, open up  
Faded I fall into you  
Get me high on your touch  
Tracing the outline of you  
Don't let go now, no slowin' down  
I'm fire and I'm burnin'

Comin' in hot, comin' in hot  
No chill for me  
Comin' in hot, comin' in hot  
Red wine and weed  
I want your touch, come put your hands on me  
I want my love to feed your vanity  
Comin' in hot  
Comin' in (hot)

Novocaine in my mouth  
Tying my tongue like you do  
Say my name, say it loud  
Tell me what you wanna do

Don't let go now, no slowin' down  
I'm fire and I'm burnin'

Comin' in hot, comin' in hot  
No chill for me  
Comin' in hot, comin' in hot  
Red wine and weed  
I want your touch, come put your hands on me  
I want my love to feed your vanity  
Comin' in hot  
Comin' in (hot)  
Comin' in hot  
Comin' in

Feel the fire - let it go  
Take it higher - lose control, oh  
Feel the fire (feel the fire) - let it go (let it go)  
Take it higher (take it higher) - lose control, oh
