

DEEP HOUSE

Adam Lambert

(You got me rolling, rolling
You got me rolling in your deep house)

I'm hypnotized
Dancing in your eyes. Let's catch a vibe
Only you and I

I don't need to hit the streets
I'll just hit it in the sheets, yeah
I don't ever wanna leave
Got me rolling in your deep house

(Deep, deep, deep, deep house)
Got me rolling in your deep house
(Deep, deep, deep, deep house)
Got me rolling in your deep house

No wait, no line
You change my mind
Ain't no club that moves me like you do
No shade, just light
We run the night

Oh baby I...
Don't need to chase the party
'Cause I get to taste your body
So hot, hot wasabi
You've got it like nobody
Don't need to chase the party
Your kisses hittin' like molly
So hot, hot get naughty
You got it like

You got me rolling, rolling
You got me rolling
Rolling in your deep house
You got me rolling, rolling
Got me rolling in your deep house, deep house

So mesmerized
Since I came inside (I came inside you, baby)
So good that I
So good that I could die

I don't need to hit the streets
I'll just hit it in the sheets, yeah
I don't ever wanna leave
Got me rolling in your deep house

No wait, no line
You change my mind
Ain't no club that moves me like you do
No shade, just light
We run the night

Oh baby I...
Don't need to chase the party

'Cause I get to taste your body
So hot, hot wasabi
You've got it like nobody
Don't need to chase the party
Your kisses hittin' like molly
So hot, hot get naughty
You got it like

You got me rolling, rolling
You got me rolling in your deep house
You got me rolling, rolling
You got me rolling in your deep house

(You got me rolling in your deep house)
(You got me rolling in your deep house)
