

Feel Something

Adam Lambert

(Wanna feel something)
(Wanna feel something)
(Just wanna feel something)
(Wanna feel something)

I've been leaving my heart in all the wrong places
Took it back way too soon when I should've been patient
I built all these walls so no one could break in
Truth it, I miss those nights when my heart could be naked

I don't need to feel love
I just wanna feel something
If it's never enough
At least it's better than nothing

After everyone I've lost
And every kiss I wasted
I don't, I don't need to feel love
Just wanna feel something (Something)
Just wanna feel something (Something)
Just wanna feel something (Something)
I just wanna feel

I waited so long to feel like I'm worthy
Find someone who could rewrite the pages I'm turning
I've grown with the pain, bathed in the lonely
All I want in this moment is someone to hold me

I don't need to feel love
I just wanna feel something
If it's never enough
At least it's better than nothing

After everyone I've lost
And every kiss I wasted
I don't, I don't need to feel love
Just wanna feel something (Something)
Just wanna feel something (Something)
I just wanna feel something (Something)
I just wanna feel

Just wanna feel something (Something)
I don't wanna feel nothing
I don't, I don't, I don't, no (Just feel something)
I don't, I don't wanna feel nothing
I don't, I don't
Just wanna feel something
Just wanna feel something
