

# Just The Way It Is

Adam Lambert

I was going blind  
Almost lost my mind  
Letting go what we could share  
I'll love you always  
Connections like ours are not made to fade

I thought I could find someone else to mind  
Moving past these routine days  
I'll love you always  
Connections like ours are not made to fade

Just the way it is  
Just a song now  
Just the way it is now  
Just the way it is  
Just a song now  
Just the way it is now

I thought I could find someone else to mind  
Moving past these routine days  
I'll love you always  
Connections like ours are not made to fade

Just the way it is  
Just a song now  
Just the way it is now  
Just the way it is  
Just a song now  
Just the way it is now

You were the first, now I believe  
Show me my thirst  
You let me lead  
You had to grow  
I had to go

Maybe if we lived just at night  
With no expectations  
Shortening our real life  
Was our degradation

Just the way it is... now

I, I was going blind  
I, almost lost my mind  
I'm letting go what we could share  
I'll love you always  
Connections like ours are not made to... fade away!
