

Run Away

Adam Lambert

So high up, shouting
Why can't everybody look
Deep inside for hope
That'll make the world open up
They don't want us
Then they really don't want them
They can hate us
But we won't let that bring us down
It won't bring us down
It won't bring us down

Run away, we won't wear out our stay
Run away, taking a holiday
Run away, let's you and me parade
Run away, then we can have our say

Our lives matter so much more than what's in their minds
I would rather disappear than live in fear
If they don't want us
Then we really don't want them
They can hate us
But we won't let that bring us down
It won't bring us down
It won't bring us down

Run away, we won't wear out our stay
Run away, taking a holiday
Run away, let's you and me parade
Run away, then we can have our say

Just run away, uh-huh
Just run away, uh-huh
It won't bring us down
It won't bring us down
Down to the ground
It won't bring us down
It won't bring us down

Run away, we won't wear out our stay
Run away, taking a holiday
Run away, let's you and me parade
Run away, then we can have our say
Run away, we won't wear out our stay
Run away, taking a holiday
Run away, let's you and me parade
Run away, then we can have our say
Run away, just run away
Run away
Run away, just run away
Run away, then we can have our say

Just run away, uh-huh
Just run away, uh-huh
Just run away, uh-huh
Just run away, uh-huh
