

WET DREAM

Adam Lambert

Feel it rise
Get erotic
Insaturate
Come and make me die

Lose my mind
Get psychotic
Imagining all the things you like

In the zone here go go silicon
Now you know how a homo take it home
In the zone here go go silicon
Now you know how a homo take it home

I can't sleep till we're down in the deep
All I need is your body heat
I can't sleep till we're down in the deep
I dive into your love like a wet dream

like a wet dream
love like a wet dream
I can't sleep till we're down in the deep
I dive into your love like a wet dream

love like a wet dream
love like a wet dream

Accelerate, automatic
Speed it up, put your love right here
Purple Haze
Psychedelic
Wake me up and make the dream feel real

I can't sleep till we're down in the deep
All I need is your body heat
I can't sleep till we're down in the deep
I dive into your love like a wet dream
I dive into it like a wet dream

like a wet dream
love like a wet dream
I can't sleep till we're down in the deep
I dive into your love like a wet dream

love like a wet dream
love like a wet dream

I can't sleep till we're down in the deep
All I need is your body heat
I can't sleep till we're down in the deep
I dive into your love like a wet dream

In the zone here go go silicon
Now you know how a homo take it home
In the zone here go go silicon
Now you know how a homo take it home
