

## Between Us

Adam Melchor

I guess I thought it was a little different then it really is b  
etween us  
Between us there's a space I thought we'd never have  
Between us  
I guess I'll make some friends  
Sit alone at zebulon again  
And meet them  
I'll meet them  
If I find the strength to go and talk  
I'll meet them  
But they don't stand a chance  
At having something like I thought we did  
Between us  
Between us  
You're the only friend I ever had  
Worth keepin  
And if I see someone we both know  
And they ask me what's up between us  
I'll keep it  
Like the only way I ever would  
Between us  
Between us
