

# Calm / Forward

Adam Melchor

Bugs will always bite me  
Needles will never fright me  
I guess its just something in my blood  
And though I love the driving  
Sometimes the road is frightening  
I guess its just part of growing up

Calm me down, face me forward  
Calm me down, face me forward  
Calm me down

Sometimes I push love away  
Sometimes I beg for it to stay  
Tryna find the best within myself  
With so many things to say  
Sometimes the right thing gets away  
And it comes out way worse than it was felt

Calm me down, face me forward  
Calm me down, face me forward  
Calm me down, face me forward  
Calm me down, face me forward
