

# Let Me Know When

Adam Melchor

All the dominoes are falling  
In the way you always told me that they could  
You get so sick of things so easily  
The fact you lasted this long's pretty good

You say you're fine, and that's all right  
I've learned to love the little ways you lie

Let me know when you fall out of love with me  
So it won't hurt so bad when you leave  
At least then, I'll expect it  
I'll tell my heart "Accept it"  
When you fall out of love with me

All the promises of calling  
Start to feel like if you wanted to you would  
I get every message sent to me  
I can read the room you're understood

You say you're fine, and that's all right  
I've learned to love the little ways you lie

Let me know when you fall out of love with me  
So it won't hurt so bad when you leave  
At least then, I'll expect it  
I'll tell my heart "Accept it"  
When you fall out of love with me  
(When you fall out of love with me)

Let me know when you fall out of love with me
