

Feel Good

Adam Saleh

I was born for a reason, I just wanna shine with all my people
To be someone they believe in
This is an occasion with everything I went through to get here
I deserve a standing ovation
Thank you, I know we all got some BS to get through
But I suggest you leave that ish behind in the restroom
Young new age soldier can be a rescue
I feel good 'cause I'm back man
Ain't no telling what I'd be if it didn't happen
Probably in jail or in the ground 6 feet
Never knew I'd tour the world by my late teens
So look back to the books
Education I failed to apprehend but look at me now
To all the people who ever doubted me in the beginning man
I'm moving the crowds

I feel good, I feel good
If you feel good, if you feel good
Let me see you touch the sky with me
Touch the sky with me
Get 'em high with me, get 'em high with me

I feel good, I feel good
If you feel good, if you feel good
Let me see you touch the sky with me
Touch the sky with me
Get 'em high with me, get 'em high with me

Feeling good in these retros
Attitude hand to hand with the pants, stroke
[?] follow where my head go
Which mean that when a boy feeling good like he should
It's onto the next, yo
See me, I'ma live it, push the limit
Do it like no man's ever did it
For my city or my country, 'cross the Pacific
To be specific
I wanna take my shows on the road
Till my accent's British (I'm a bad man)
X that image
No need to brag no more, that's finished
Blowing up in these [?] vintage
Proud as hell how I rep my village
Times Square gets lit whenever I'm in it
Next time we meet I'll be telling you I did it
The [?] looking good cuz it's [?]

I feel good, I feel good
If you feel good, if you feel good
Let me see you touch the sky with me
Touch the sky with me
Get 'em high with me, get 'em high with me

I feel good, I feel good
If you feel good, if you feel good
Let me see you touch the sky with me
Touch the sky with me

Get 'em high with me, get 'em high with me

Setting sail on the yacht and y'all just missed it
I don't no spot, I don't need no assistance
I don't raise the bar or even lift it
Bar so far up you can only see it from a distance
Saying everything that they can't take from me
While I'm tryna live the dream, make it white man Monday
I'm a bad boy, not doing what I should
Only reason why I rap 'cause it make me feel good

I feel good, I feel good
If you feel good, if you feel good
Let me see you touch the sky with me
Touch the sky with me
Get 'em high with me, get 'em high with me

I feel good, I feel good
If you feel good, if you feel good
Let me see you touch the sky with me
Touch the sky with me
Get 'em high with me, get 'em high with me
