

Tears

Adam Saleh

Those tears let me wipe them away
I know you'll be okay that's what you used to say
Now you're in heaven keeping me safe
But this feels like hell now that your not here with me

She told me daddy was her best friend
Devastated she don't know how it can just end
Daddy how you could you leave me like this is not fair
Cause not it's just me and mamma at home and I'm scared
Everyday she's reminiscing on the time spent
But she can't even comprehend where the time went
But not it's me and her and I swear that I'll be there that ima take the pain away
I'm right, I'm right here

Those tears let me wipe them away
I know you'll be okay that's what you used to say
Now you're in heaven keeping me safe
But this feels like hell now that your not here with me
(I'm right here, I'm right here)
Now that your not here with me

The day her daddy crashed I can tell by her reaction
He was driving too fast in the fast lane when it happened
Now I try to imagine and help her through the sadness
And tell her it's gonna be alright
So baby please be who you wanna be
I know your father would be proud of who you gonna be
So don't let anybody tell you what your gonna be
Oh baby you can have anything you want from me

[Adam:] I can't replace him but baby I'll try
[Zack:] To be the man that he'll be proud of
[Adam:] Everyday for the rest of my life
[Zack:] Promise to be the one that I can count on
[Adam:] I can't replace him but Baby I'll try
[Zack:] Don't wanna cry no more but these tears will go away
[Adam:] Everyday for the rest of my life...
[Zack:] Go away, go away, go away, go away...gonna be yea

So baby please be who you wanna be
I know your father would be proud of who your gonna be
So don't let anybody tell you what your gonna be
Oh baby you can have anything you want from me

Anything you want from me yeah
(Anything)...
Want from me
(Anything you want from me girl)
Want from me yeah
Want from me yea
(I'll give you the world)...
Now your in heaven keeping me safe
(Ima keep you safe girl)
But this feels like hell now that your not here with me
(I'll always be here for you)
Now that your not here with me

I'm here for you, always and forever, I promise you that

Those tears let me wipe them away

I know you'll be okay

That's what you used to say
