

## Ya Ghayeb

Adam Saleh

Girl you know you cold  
Why you leave my heart on freeze?  
You kept me warm like summer  
Soon as I fall you leave  
Maybe it's just a dream  
And when I blink I see  
The one I'm made for  
The one that's made me

I don't wanna rush things with you  
Girl it's true, I been searching high and low, just for you  
I'm losing time, it's fine, we tied up like dolla sign in 10 minutes I'll be outside like

Come back, it's already been to long  
I love you, you know that  
What flight can I put you on?  
I miss you, can't sleep without you at night  
When things go bad, if you got my back, Wallahi I'll be alright

Built for the run way, but you're more than you looks  
Mind full of wisdom, can't find no boks  
Can't share you coz you're all mine  
We tied up like dolla sign, in 10 minutes I'll be outside like
