

Asswipe

Adam Sandler

That was fun. Are you ever wiping yourself, uh, back there... You're wiping up pretty good, and then you keep wiping. And then you've really... you've got to keep wiping. And you wipe again, and then you wipe another one. Then you go, "You know what? Just out of principal, I'm stopping after this next one. It's fucking enough already. I don't care if I'm done or not. This is fucking killing me. [laughter] Whatever happens happens. Get me the fuck out of here."
