

# Obsessed

Addison Rae

You turned our song down, baby, what for?  
You had lit candles on the dashboard  
Red roses growin' out of the door  
Wanna say somethin' you never said before

We were drivin' down Sunset  
You know I love fast cars  
Passed by where we first met  
Damn, we made it so far  
Red eyes from the red light  
And that just set the mood  
You say you're obsessed with me  
So I took a second  
And I said, "Me too"

I'm obsessed with me as much as you  
Say you'd die for me, I'd die for me too  
And if I lost you, I'd still have me, I can't lose  
When you say that you're obsessed with me, me too

I did my hair like waves on the beach  
This dress so tight, you can't even speak  
My heels so high, might get a nosebleed  
Music's so loud, but I hear your heartbeat

We were drivin' down Sunset  
You know I love fast cars  
Passed by where we first met  
Damn, we made it so far  
Red eyes from the red light  
And that just set the mood  
You say you're obsessed with me  
So I took a second  
And I said, "Me too"

I'm obsessed with me as much as you  
Say you'd die for me, I'd die for me too  
And if I lost you, I'd still have me, I can't lose  
When you say that you're obsessed with me, me too  
I'm obsessed with me as much as you  
Say you'd die for me, I'd die for me too  
And if I lost you, I'd still have me, I can't lose  
When you say that you're obsessed with me, me too
