

Summer Forever

Addison Rae

Fears thrown out the window
Feels like summer forever

Loving's hard, my parents said it
Yours said, "Second time's the charm"
I never thought I'd find someone easily
Now I'm wrapped up in your arms and it feels just like a dream
Friends say I disappeared
I blame it on the things we do

And now we're
Staying up all night long
Singing our favorite songs
Making out in the car
Doing shots at the bar
We're naked at the beach
Barefoot on the street
Background on my phone
Never felt less alone

All my fears thrown out the window
Makes it feel like summer forever
And I truly think you're special
This love's one to remember

All my fears thrown out the window
Makes it feel like summer forever
And I truly think you're special
This love's one to remember

My 11:11
Would you fly with me to Paris?
We could get real romantic
And never ever stop dancing
The edge feels safer when I'm standing on it with you

And now we're
Staying up all night long (All night long)
Singing our favorite songs (Favorite songs)
Making out in the car
Doing shots at the bar (At the bar)
We're naked at the beach (At the beach)
Barefoot on the street (On the street)
Background on my phone
Never felt less alone (Alone)

All my fears thrown out the window
Makes it feel like summer forever
And I truly think you're special
This love's one to remember

All my fears thrown out the window
Makes it feel like summer forever
And I truly think you're special
This love's one to remember

Love you so bad

I love you so bad
Love you so bad
I love you so bad
Love you so bad
I love you so bad
Love you so bad
I love you so bad

This ain't my first time, but baby, I hope that it's my last
Want this to last

Fears thrown out the window
Feel like summer forever
And I truly think you're special
This love's one to remember

All my fears thrown out the window
Makes it feel like summer forever
And I truly think you're special
This love's one to remember

Love you so bad
I love you so bad
Love you so bad
I love you so bad
Love you so bad
I love you so bad
Love you so bad
I love you so bad
