

# The Only Thing

Addison Road

Late at night  
trying to find some sleep  
but I cant close my eyes  
feel the need for change  
on the inside  
I need something

It's a perfect road that leads me straight to you  
I know it  
I feel it in the waves of love  
I'm spoken  
in a love i dont deserve

The only thing thats good in me is you  
The only thing thats good in me is you

I could tell you  
all of my mistakes  
but that is pointless  
the point is that theyve been erased  
T know that  
the only thing thats good in me is you

I can hear you  
speak words in my heart  
and its like breathing,  
a candle in the dark  
and i know that this love I found is true

The only thing thats good in me is you  
The only thing thats good in me is you

I know i dont get it right most of the time  
but please dont give up on me  
on me

The only thing thats good in me is you  
The only thing thats good in me is you  
The only thing thats good in me is you  
The only thing thats good in me is you
