

Falling Up

Adekunle Gold

Many many things I saw
Many many men don fall
Stallion standing tall
Oh my God, it's not my fault
Wonder how I stay on top
Fire every time I drop
Every beat I see, I chop
Life is soft, it's not by force

Know me I got the keys to my city
When you see me salute, I be kinging
Call me man of the year, it's my season
Woah woah woah woah woah
Kekere le ri, I'm just teasing
Throwing money around for no reason
Even if I lose, I be leading

Steady falling up
I stay falling up
I be falling up
Yeah, I'm falling up
Steady falling up
I stay falling up
I be falling up
Yeah, I'm falling up

What can I say?
I never miss
They never hear gbedu like this
Taking it global, satellite dish
We travel no visa, yeah yeah yeah
And I believe somehow
Living in my glory days
And I did it my own way, yeah yeah

Lagos boy, I dey hustle, know how the story goes
Never followed the blueprint, I just wrote my own
Me I believe in God, me I won't sell my soul
It's my season
Even if I lose, I be leading

Steady falling up
I stay falling up
I be falling up
Yeah, I'm falling up
Steady falling up
I stay falling up
I be falling up
Yeah, I'm falling up

Every time they come shoot, I just fall back up (Yeah, oh-oh-oh)
Every time they come shoot, I just fall back up
And I know somebody need to hear this, right now
Every time they come shoot, I just fall back up (Fall back up, oh-oh-oh)
Every time they come shoot, I just fall back up
No gravity is pulling us
We escape untouched

'Cause God's got us
So, no matter what, we will be

Falling up
I stay falling up
I be falling up
Yeah, I'm falling up
Steady falling up
I stay falling up
I be falling up
Yeah, I'm falling up

Steady falling up
I stay falling up
I be falling up
Yeah, I'm falling up
Steady falling up
I stay falling up
I be falling up
Yeah, I'm falling up
