

Sleep

Adekunle Gold

Sleep dey your mind when it's cold at night
Pressure burst pipe when you hold me tight
Even if I dey alright we go on till the morning
This a, this a different kind of love
Show me a different, different, different side of you

Down in a damaged city with the finest smoke
But I've got no baby
Throw me a stone, I'ma take it like bone
That's a long, long, long time coming
Down in a damaged city with the finest smoke
But I've got no baby
Throw me a stone, I'ma take it like bone
That's a long, long, long time coming

Sleep dey your mind when it's cold at night
Pressure burst pipe when you hold me tight
Even if I dey alright we go on till the morning
This a, this a different kind of love
Show me a different, different, different side of you

When I stay we should make it work
I wanna keep it on a regular
I got stamina
And no lie, I'm emotional
When I stay we should make it work
I wanna keep it on a regular
I got stamina
And no lie, I'm emotional

Do you, do you
Another mistake
I'm running relay on emotion
Running on emotion
You do you
But I want you to stay
Don't walk right away, I'm emotional

Sleep dey your mind when it's cold at night
Pressure burst pipe when you hold me tight
Even if I dey alright we go on till the morning
This a, this a different kind of love
Show me a different, different, different side of you
