Keep Burning

Adele

Better know that summer is over
I'm not gonna tell if you don't
Rather wear the sea on my shoulders
Than trust my old umbrella and junk

As the pavement sinks
Autumn rings
Feel my limb
Heart than sing

Volcano speak
I'm erupting
My ground is turning, I keep burning everything
Volcano please
You're my disease
My core is a aching, I can't shake him out of me
Go back to sleep

Callin' for the winner coke find me
Ship me back to Florence tonight
Draggin' all my mirrors behind me
Which I will never get back inside

Where the lava lies
Watch it rise
Keep my eyes
Hypnotize

Volcano speak
I'm erupting
My ground is turning, I keep burning everything
Volcano please
You're my disease
My core is a aching, I can't shake him out of me
Go back to sleep

Volcano speak
I'm erupting
My ground is turning, I keep burning everything
Volcano please
You're my disease
My core is a aching, I can't shake him out of me
Go back to sleep
