

# Tired

Adele

**C** **E**  
Hold my hand while you cut me down  
**Am** **E**  
it had only just begun but now it's over now  
**C** **E**  
and you're in the heat of moments with your heart playing up cold  
**Am** **E**  
I'm between the middle watching hastiness unfold  
**C** **E**  
in my eyes you were smiling in the spotlight dancing  
**Am** **E**  
with the night when I fell off your mind

(chorus)

**F**  
I'm tired of trying  
**C** **E**  
your teasing ain't enough  
**F**  
fed up of biding your time  
**C** **E**  
when I don't get nothing back  
**F** **C** **E** **F**  
and for, and for what, and for  
**C** **E**  
when I don't get nothing back  
**C**  
Boy, I'm tired

**C** **E**  
where do you go when you stayed behind  
**Am** **E**  
I looked up and inside down and outside only to find  
**C** **E**  
a double taking punching hard and laughing at my smile  
**Am** **E**  
I get closer you obviously prefer her

(chorus)

**F**  
I'm tired of trying  
**C** **E**  
your teasing ain't enough  
**F**  
fed up of biding your time  
**C** **E**  
when I don't get nothing back  
**F** **C** **E** **F**  
and for, and for what, and for  
**C** **E**  
when I don't get nothing back

**F**
