

# Why Do You Love Me

Adele

Why do you love me, do you love me?  
Why do you love me, do you love me?  
Why do you love me, do you love me?  
Why do you love me?  
Why do you love me, do you love me?  
Why do you love me, do you love me?  
Why do you love me, do you love me?  
Why do you love me?

Why do you love me?  
There must be something in the water  
Cause baby I'm in deeper than I knew  
How do you keep me coming back for more  
After all we've been through  
I can't decide if I should run and hide

It's above and beyond me, the start of my hands  
Your love drives me crazy, it's hard to understand just why  
I want you to love me  
I want you to love me  
I want you to love me  
I want you to love me

Who knows why I love you  
It could be something in the air I breath  
Whatever it is, I bleed  
Where does the time go?  
I spend every single moment daydreaming of you  
I can't describe how I feel, it feels right

It's above and beyond me, the start of my hands  
Your love drives me crazy, it's hard to understand just why  
I want you to love me  
I want you to love me  
I want you to love me  
I want you to love me

You were a shock in the dark that blew me away  
And you left your mark and it never will fade  
You ignited a spark, let the fires away  
Are you ready, ready?  
You have a place in my heart that will always be yours  
You are the peak and dark of my universe  
Every piece and part, you were the first  
I am ready, ready

It's above and beyond me, the start of my hands  
Your love drives me crazy, it's hard to understand just why  
I want you to love me  
I want you to love me  
I want you to love me  
I want you

It's above and beyond me, the start of my hands  
Your love drives me crazy, it's hard to understand just why  
I want you to love me  
I want you to love me

I want you to love me  
I want you to love me

Why do you love me, do you love me?  
Why do you love me, do you love me?  
Why do you love me, do you love me?  
Why do you love me, do you love me?
