

Safety Light

Adelén

Desert island, windy storm
That's how it feels to love ya
That's how it feels to love ya
Thunder, lightning, hit the wall
No, our love ain't obvious
But we do it anyway, mmh

When I fall, you got me every time
Till I feel steady on my feel again
When you get lost standing in the cold
I search for you till the end

I get sentimental
It's 'cause you're so damn special
And I won't let you go
Won't let you go
And I don't got a second
Deep in your affection
In the darkness, all I know
Through the night
My safety light

Easy come, easy go
If I'm being honest
Don't wanna put that on us
You're complex but so am I
I mean I might have to find ya
Run off the edge to find ya

When I fall, you got me every time
Till I feel steady on my feel again
When you get lost standing in the cold
I search for you till the end

I get sentimental
It's 'cause you're so damn special
And I won't let you go
Won't let you go
And I don't got a second
Deep in your affection
In the darkness, all I know
Through the night
My safety light

I get sentimental
I say safety light, yeah
My safety light
I get sentimental, baby
My safety light, yeah
My safety light

Desert island, windy storm
That's how it feels to love ya
That's how it feels to love ya
