

Down for Anything

Adelitas Way

I'm down for anything
Who knows what life will bring
I'm down for anything
No matter what, no matter what it is

(I'm down for anything)

All I wanna do is kick it wit you, trips and views
We'll do whatever we want, let's do whatever we want
Hit the town under New York City lights
Hit a white sand beach in paradise
All I wanna do is whatever we want
So watcha wanna do

Ride with me, ride with me
Do you really wanna ride til you die with me
Come on, fly with me, fly with me
I love the way you wanna come feel alive with me
I'm down for anything...

Anywhere we go, baby let me know
Take it fast or slow
We'll do whatever we want, let's do whatever we want
We can live out the West Coast Cali dream
Watch the sun set down like a movie scene

Ride with me, ride with me
Do you really wanna ride til you die with me
Come on, fly with me, fly with me
I love the way you wanna come feel alive with me
I'm down for anything...

Hit the town under New York City lights
Hit a white sand beach in paradise
All I wanna do is whatever we want
So watcha wanna do

Ride with me, ride with me
Do you really wanna ride til you die with me
Come on, fly with me, fly with me
I love the way you wanna come feel alive with me
Ride with me, ride with me
Do you really wanna ride til you die with me
Come on, fly with me, fly with me
I love the way you wanna come feel alive with me
I'm down for anything...

(All I wanna do is whatever we want
So watcha wanna do)
