

FEAR

Adelitas Way

Inside everyone
Fear
Fear
Fear
Inside everyone

It hides in many places
It can disguise itself
It morphs inside and shapes it
Sometimes it's hard to tell
It creeps in like a ghost
If you feed it, it will grow
It wants to smash you down
Keep you trapped in yourself

You can't count me out
You can't hold me down

Fear is our emotional despair
That hides behind the walls of all you care about
Faith can be your light, our guiding song
To bring you back to life, when all feels wrong

Inside everyone
Fear
Fear
Fear
Inside everyone

Depression finds its victim
It never lets you breathe
The enemy is cunning
As colors start to bleed
I cannot lift my head, turn my eyes up to the sky
They're telling me it's not real, but cannot answer why

You can't count me out
You can't hold me down

Fear is our emotional despair
It hides behind the walls of all you care about
Faith can be your light, our guiding song
To bring you back to life, when all feels wrong

Inside everyone

You can't count me out
You can't hold me down

Fear is our emotional despair
That hides behind the walls of all you care about
Faith can be your light, our guiding song
To bring you back to life, when all feels wrong

Inside everyone
Fear
Fear

Fear
Inside everyone
Fear
Fear
Fear
Inside everyone
