

# Habit

Adelitas Way

In the flip of the switch I'm like a fiend  
Lock me up tight, throw away the key (Throw away the key)  
(Throw away)  
When I'm feelin' the itch and I'm off-the-wall  
Bruce Banner goes green and I lose control (And I lose control)

When I'm without it, the more that I want it  
Make me feel alive  
Got me addicted, I cannot resist it, even though I try  
The more that I feed it, the more that I need it  
It gets me high  
You get me high, high

And I can't help myself  
I got a habit  
I give up, I give in  
But I do it again  
I can't help myself  
I got a habit  
I give up, I give in  
But I do it again  
(I do it again)  
(But I do it again)  
(But I do it again)

With each tick of the clock I'm growing bored  
You're the only one that's got the cure (That's got)  
The cure for my disease, that sets my body free  
It's like a little piece of heaven (Of heaven) (Of heaven)

When I'm without it, the more that I want it  
Make me feel alive  
Got me addicted, I cannot resist it, even though I try  
The more that I feed it, the more that I need it  
It gets me high  
You get me high, high

And I can't help myself  
I got a habit  
I give up, I give in  
But I do it again  
I can't help myself  
I got a habit  
I give up, I give in  
But I do it again  
When I'm at the end and I'm on the mend  
And I do it again  
I got a habit  
When it's 2 a.m. and I'm on a bend  
And I do it again  
I got a habit, yeah

And I can't help myself  
I got a habit  
I give up, I give in  
But I do it again  
I can't help myself

I got a habit  
I give up, I give in  
But I do it again  
When I'm at the end and I'm on the mend  
And I do it again  
I got a habit  
When it's 2 a.m. and I'm on a bend  
And I do it again  
I got a habit
