

Live Love Life

Adelitas Way

I know it's hard for you to handle my life
You're so lonely and it kills you inside
When I left you, the tears in your eyes
It breaks my heart 'cause I'm makin' you cry

But I-I've, been thinkin' of you
And I-I, don't know that I can make it without you

And I love the way you live love life
You keep me breathin'
And I, I'm the one who fell so fast
And you're the reason
I live love life
Every day that I live love life
I'm just tryin' to get back to you, whoa
I love the way that you live

Maybe I missed you more every time
It's cold and lonely but I'm livin' my life
When I was helpless and everybody went
You reached out and you gave me your hand

And I-I, keep thinkin' of you
And I-I, don't know that I could do this without you

And I love the way you live love life
You keep me breathin'
And I, I'm the one who fell so fast
And you're the reason
I live love life
Every day that I live love life
I'm just tryin' to get back to you, whoa
I love the way that you live

I just wanted to be there with you
It gets hard to go on without you

But I-I've, been thinkin' of you
But I-I've, been waitin' for you

And I love the way you live love life
You keep me breathin'
And I, I'm the one who fell so fast
And you're the reason
I live love life
Every day that I live love life
I'm just tryin' to get back to you, whoa
I love the way that you live

You keep me breathin'
I love the way that you live
You keep me breathin'
I love the way that you live

Live love life
Every day that I love love life
I'm just tryin' to get back to you, whoa

I love the way that you live
