

One Way to Find Out

Adelitas Way

Ain't no denying that there's something between us
By the way, you keep looking over here at me

Talking with your eyes messing with my mind
Kind of makes me wonder where the night could lead
Maybe if we ditch the party
What kind of fire would we get started

Yeah, there's only one way to find out
I got a couple roads we can ride round
Baby, if you really wanna know how a good old boy rolls
I can go and show you right now
And maybe you'll like it, or maybe you'll love it
Or maybe tonight might turn into something
But if you wanna know how it goes down
Girl, there's only one way to find out
Let's go and find out, you wanna find out
Let's go and find out, you wanna find out
Girl, let's go and find out

We ain't gonna see if you and me don't leave the bar
We can only go so far til we underneath the stars
Do some dancing in the lights do some kissing in the dark
Might be falling by the time I take you home with me

Yeah, there's only one way to find out
I got a couple roads we can ride round
Baby, if you really wanna know how a good old boy rolls
I can go and show you right now
And maybe you'll like it, or maybe you'll love it
Or maybe tonight might turn into something
But if you wanna know how it goes down
Girl, there's only one way to find out
Let's go and find out, you wanna find out
Let's go and find out, you wanna find out
Girl, let's go and find out

Baby if we ditch the party
What kind of fire would we get started

Yeah, there's only one way to find out
I got a couple roads we can ride round
Baby, if you really wanna know how a good old boy rolls
I can go and show you right now
And maybe you'll like it, or maybe you'll love it
Or maybe tonight might turn into something
But if you wanna know how it goes down
Girl, there's only one way to find out
Let's go and find out, you wanna find out
Let's go and find out, you wanna find out
Girl, let's go and find out
