

Stay Ready

Adelitas Way

Where I'm from you put your money where your mouth is, show your heart
From the city nights I earned my stripes, to paradise I hit 'em hard

It's in all our blood to survive time and time again
Let's live in the moment
Do it all for love, love alive, breathe the freedom in
So stop and smell the roses

Yeah, don't f*ck around with me
'Cause I stay ready, I stay ready
Yeah, don't f*ck around with me
I stay ready, I stay ready

Every single day I see my prey still creeping up behind my back
Never underestimate a man who's made of steel and never cracks

It's in all our blood to survive time and time again (Ooh, yeah
)

Let's live in the moment
Do it all for love, love alive, breathe the freedom in (Ooh, yeah)
So stop and smell the roses

Yeah, don't f*ck around with me (Don't f*ck around with me)
'Cause I stay ready, I stay ready (I stay ready)
Yeah, don't f*ck around with me (Don't f*ck around with me)
I stay ready, I stay ready (I stay ready)

Yeah, don't f*ck around with me (Don't f*ck around with me)
'Cause I stay ready, I stay ready (I stay ready)
Yeah, don't f*ck around with me (Don't f*ck around with me)
I stay ready, I stay ready (I stay ready)
