

What It Takes

Adelitas Way

My mind is racing, heart is pacing
Everything I want I taste it I embrace it
Gotta have the patience, dedication
Never leave a moment wasted, chasing greatness
I think its kinda funny that they slept on me
Here's a couple things they should know about me
No plan B just a one way ticket
This is what it takes that's the difference

I been waiting for this all my life, it's my time
I never hesitate, I dig down, stand my ground
Look at all the valleys that I made it through
You're looking at somebody with too much to lose
The sacrifices made everyday, it's the price I pay
This is what it takes

Eyes on the prize yeah this is what it takes (This is what it takes)
Eyes on the prize when it's make or break (This is what it takes)
Eyes on the prize yeah this is what it takes, this is what it takes

The way I play it's calculated
Gonna take the game and change it, fuck the haters
Turn the blood, 'n sweat, 'n tears to gold
When you break the mold and get results, here we go

I been waiting for this all my life, it's my time
I never hesitate, I dig down, stand my ground
Look at all the valleys that I made it through
You're looking at somebody with too much to lose
The sacrifices made everyday, it's the price I pay
This is what it takes

Eyes on the prize yeah this is what it takes (This is what it takes)
Eyes on the prize when it's make or break (This is what it takes)
Eyes on the prize yeah this is what it takes, this is what it takes
What's it gonna be

Eyes on the prize yeah this is what it takes
Eyes on the prize when it's make or break
Eyes on the prize yeah this is what it takes, this is what it takes
What's it gonna be

I been waiting for this all my life, it's my time
I never hesitate, I dig down, stand my ground
Look at all the valleys that I made it through
You're looking at somebody with too much to lose
The sacrifices made everyday, it's the price I pay
This is what it takes

Eyes on the prize yeah this is what it takes (This is what it takes)
Eyes on the prize when it's make or break (This is what it takes)
Eyes on the prize yeah this is what it takes, this is what it takes
This is what it takes
