

Memories of youth  
Holding the key  
Watching off of some more  
Treading today  
The way she falls, it's complicated  
Sounds of crowds, it's time to leave

So...  
This time you're at war  
Something worth fighting for

Rely on your lions  
She rides the lions  
Rely on your lions  
She rides the lions

What happened to you  
Won't happen to me  
Watch you walk through the door  
But you ain't the same  
You claim to crawl the sacred queens  
Living after the things I've seen

So...  
What are you waiting for  
Something worth fighting for

Rely on your lions  
She rides the lions  
Rely on your lions  
She rides the lions  
You can rely on  
You still deny us  
She rides the lions

Well it ain't the truth  
Will I even care  
Where you're coming from  
All I can do  
Was sit there and stare  
You wanted reliance  
She asked for compliance  
Well that's what you'll get  
So that's what you'll get

Rely on your lions  
She rides the lions  
Rely on your lions  
She rides the lions  
You can rely on  
You still deny us  
She rides the lions  
Rely on your lions  
Rely on your lions  
Rely on
