

# Violent Principles

Adema

You failed to look behind you  
Too late to twist your lies  
I was standing right beside you  
Ready to fight until I die  
Not about to waste my time  
Stand outside the painted lines  
I started feeling myself burning

Not gonna take this slow  
Burn this city to the ground  
Not gonna let this go  
Let your ego tear you down  
It's not consensual  
Choke on whispers as you drown  
So antisocial  
With violent principles

Never question what's inside you  
Never try to find out why  
When I was standing right beside you  
Lost in hate with sharpened knives  
Not about to lose this fight  
Dancing on my grave this time  
I started feeling myself falling

Not gonna take this slow  
Burn this city to the ground  
Not gonna let this go  
Let your ego tear you down  
It's not consensual  
Choke on whispers as you drown  
So antisocial  
With violent principles

We isolate  
So it's easier to hate  
Just can't relate  
We need pills to sedate

Never gonna let me out of this fucked up life  
Never gonna let me out of this fucked up life

Not gonna take this slow  
Burn this city to the ground  
Not gonna let this go  
Let your ego tear you down  
It's not consensual  
Choke on whispers as you drown  
So antisocial  
With violent principles

Not gonna take this slow  
Burn this city to the ground  
Not gonna let this go  
Let your ego tear you down  
It's not consensual  
Choke on whispers as you drown

So antisocial  
With violent principles
