

## A Job For Real Men

Adhesive

Somewhere inside your empty head  
You think you're working-class  
But you corrupt the whole idea  
With your "white aryan pride"  
Solidarity to you,  
The word is just a curse  
An illusion in your world  
Where only the strong survive

Everything is alright,  
You may have your "white aryan war"  
Everything is alright,  
But you will be the first ones to go!

A job for real men a job for real saints  
A world for real men a world for real saints

Everything is alright,  
You may have your "white aryan war"  
Everything is alright,  
But you will be the first ones to go!

A job for real men a job for real saints...
