

# Faithful To The Night

Admiral Freebee

Sun shines brightly  
On my soul  
Whenever I  
Think of you

I'm faithful to the fight  
Between the boy and the girl  
I'm faithful to the night  
To make me feel alright

So come on, come on, come on  
Follow me down  
So come on, come on, come on  
Follow me down

It's hard to tell  
Who's gonna love you the most  
It's hard to discover  
That they treat you like a ghost

So your faithful to the fight  
Between the boy and the girl  
You're faithful to the night  
To make you feel alright

So come on, come on, come on  
Follow me down  
So come on, come on, come on  
Follow me down  
Oh, won't you follow me down

So rock me  
And shock me  
Reach me  
And teach me  
Baby, what's it gonna be  
What's it gonna be?

So break me  
And shake me  
So find me  
Reming me  
Baby, what's it gonna be  
What's it gonna be?

Come on, come on, come on  
Follow me down  
So come on, come on, come on  
Follow me down  
So come on, come on, come on  
Follow me down  
So come on, come on, come on  
Follow me down
