

Quicksand Blaster

Adolescents

Stuck on Danger Island, we ain't got a boat
I'll ask you to get married
When you learn to float
Although you slipped into the pit & thought there was no hope
You can't drown in quicksand, because I brought a rope
Oh yeah
Oh yeah

That's right
I think I'm in love with you
Pick me up when I feel blue
Elmer Fudd or Elmer's glue
It won't matter when the tanks roll through

I think that I love you true
Violets red and roses blue
All these things I give to you
It won't matter when the tanks roll through
Oh yeah

Stuck on Danger Island, now we have a boat
Guess it doesn't matter
That you learn to float
Tree to tree, swinging vine slipped
And then it broke
Oh yeah
Oh yeah

I think that I love you true
Violets red and roses blue
All these things I give to you
It won't matter when the tanks roll through

I think that I love you true
Violets red and roses blue
All these things I give to you
It won't matter when the tanks roll through
Oh yeah

I think that I love you true
Violets red and roses blue
All these things I give to you
It won't matter when the tanks roll through

I think that I love you true
Violets red and roses blue
All these things I give to you
It won't matter when the tanks roll through

I think that I love you true
Violets red and roses blue
All these things I give to you
It won't matter when the tanks roll through

I think that I love you true
Violets red and roses blue
All these things I give to you

It won't matter when the tanks roll through

I think that I love you true

Violets red and roses blue

All these things I give to you

It won't matter when the tanks roll through

Oh yeah
