

Practical Magical

Adore Delano

Never gonna be your wife
I stray far away from guys
One greenish half blue eye
Impossible for me to find

I fight to make it so nobody else can see you
I like the way that I can have my cake and eat it too
And all the ways you stare and blink your eyes through to me
It's sad the way my brain has drained availability
Our hearts protected by my magic practicality

Time flies tripping over blush wine
Sparkling my green eyes
Turning tricks at midnight
Time flies chilling with the bi guys
Getting drunk on high life
Making all the queens cry
Jump in the ocean with me tonight
Skinny dipping tripping 'til we see sunlight
Give you permission to waste my life
Make-believe imaginary love in my mind

Like a hot press perfect curl
Wrap my life up in a swirl
Lay the oyster I'm your pearl
Swimming underneath the world

I fight to make it so nobody else can see you
I like the way that I can have my cake and eat it too
And all the ways you stare and blink your eyes through to me
It's sad the way my brain has drained availability
Our hearts protected by my magic practicality

Time flies tripping over blush wine
Sparkling my green eyes
Turning tricks at midnight
Time flies chilling with the bi guys
Getting drunk on high life
Making all the queens cry
Jump in the ocean with me tonight
Skinny dipping tripping 'til we see sunlight
Give you permission to waste my life
Make-believe imaginary love in my mind

Dreaming of you is better than dope
Like a starfish don't ever let go
Drinking of you my stars always glow
In my head so nobody else knows

I fight to make it so nobody else can see you
I like the way that I can have my cake and eat it too
And all the ways you stare and blink your eyes through to me
It's sad the way my brain has drained availability
Our hearts protected by my magic practicality

Time flies tripping over blush wine
Sparkling my green eyes

Turning tricks at midnight
Time flies chilling with the bi guys
Getting drunk on high life
Making all the queens cry
Jump in the ocean with me tonight
Skinny dipping tripping 'til we see sunlight
Give you permission to waste my life
Make-believe imaginary love in my mind
