

Rolling Stoner

Adore Delano

Hearts of glass break wherever I go
Roses fade into dark indigo
Nothing lasts for a lifetime
Neighborhood glitter is gold

Last night clouds were hailing I
Was living in his vines
Casting oleander lies
Lay laws of butterflies

Roll in
I dip my toes before my feet
Roll out
When emotions get too deep
I pack my shit it's time to leave
And hit the bowl like a rolling stoner

Roll in
I think we have some time to kill
Roll out
My love is like a purple pill
Let's pack my shit it's up the hill
To hit the road like a rolling stoner

Leave behind scents wherever I go
Time will pass it'll all go to show
Love is crashed by the nightlife
Beautiful shivers unfold

Back when clouds were hailing I
Was living in his mind
Casting your vanilla sky
Lay laws of butterflies

Roll in
I dip my toes before my feet
Roll out
When emotions get too deep
I pack my shit it's time to leave
And hit the bowl like a rolling stoner

Roll in
I think we have some time to kill
Roll out
My love is like a purple pill
Let's pack my shit it's up the hill
To hit the road like a rolling stoner

I'm rolling deep, I'm rolling out
I don't know what you're talking about
I'm rolling deep, I'm rolling out, I'm rolling out
