

Something To Do

Adrian Belew

Try to lose your attitude, put it in your boots
Or stick it where the sun doesn't shine
Try to have a good time, it's something to do
I read a good book, buy a pair of shoes
Maybe I'm a strange kinda dude
But, hey, maybe it's you, it's something to do
I understand unhappiness
An excellent plan for a martyr to have
But what is the sense of having regrets
It's only just a waste of time
I look at the sky, I walk in the yard
Study little birds with binoculars
So, call me a nerd, it's something to do
Try a day in the park, play in the dirt
Or go to the mall if that's what blows up your skirt
What can it hurt?
It's something to do
