

## Walk Around the World

Adrian Belew

1. When the sun falls from the sky  
and the muse begins to fly  
Then she will come to wrestle me  
Just as I am about to sleep  
When the moonlight in the fall  
Make some movie on the wall  
Then she will come to tears  
She's afraid of fall from reality

Ref: Walk around the world tonight  
See these places - they're only in my mind  
I see everything - beautiful things  
I can do the garden in your hair

Visualize the city in the air  
Where little faces in little squares  
Talk to me  
I am late  
I am late

2. If a man can't learn to bend  
Like a reed does in the breeze  
Then how will he ever comprehend  
All of life's sweet mysteries.

Ref: Walk around the world tonight

Use your brain  
Your perception  
Use your imagination  
Even reality is mostly in your mind
